Relevant Academic Projects

REA Group Strategic Analysis | Individual Project | SIEN5001

- Independently assessed REA Group's competitive position using PESTE, Porter's Five Forces, value chain analysis and VRIO, distinguishing sustainable advantages from capabilities vulnerable to imitation.
- Evaluated how audience–listing network effects and proprietary data support competitive advantage, alongside risks from AI disruption, pricing pressure and data governance.
- Developed a two-year strategy integrating verified-data AI services, transparent value reporting for agents and controlled external AI partnerships, with performance measures covering retention, conversion and responsible AI.

AI Companion Safety: Research and System Design | Group Project | INFS3600

- Established the project's foundation by defining the problem and user scenario and selecting the research methodology for investigating psychological risks associated with AI companion chatbots.
- Analysed stakeholder impacts to inform a proposed duty-of-care framework and Safety Compliance and Escalation System, connecting user safety needs with platform accountability.
- Contributed to the testing process and prototype presentation, demonstrating how the proposed system could detect escalating risk, trigger proportionate interventions and support human review.

CMPC Hornsby: Service and Business Process Design | Group Project | INFS3120

- Developed BPMN process models in SAP Signavio for proposed dementia and falls-risk consultation services, translating the service concept into activities, responsibilities and decision pathways.
- Conducted stakeholder analysis to assess the proposed service's impacts and identify implementation needs and potential challenges.
- Contributed process models and stakeholder findings to the team's service blueprint, supporting operational evaluation and implementation planning.

Lextel: Enterprise Software Evaluation
Group Project | INFS3040

- Researched Salesforce Commerce Cloud's vendor profile and assessed its capabilities against Lextel's requirements for replacing a legacy eCommerce platform.
- Developed a weighted evaluation matrix comparing BigCommerce, SAP Commerce Cloud and Salesforce Commerce Cloud across business and technical criteria.
- Conducted evidence-based assessments of all three vendors, examining functional fit, extensibility and integration trade-offs to support the team's recommendation of SAP Commerce Cloud.

PROFESSIONAL EXPERIENCE

Sales Assistant
Unique Retailing Group | Sydney, Australia | Jun 2025 – Present | Theory · Vince · Nili Lotan

- Support sales and daily operations across four premium fashion brands, adapting to different teams, customer expectations and brand standards.
- Coordinate deliveries, stock transfers, replenishment and online order fulfilment across brands and locations, maintaining inventory records and merchandise availability.
- Complete opening and closing procedures, including stock checks, sales tracking, till reconciliation and end-of-day reporting, supporting operational accuracy and accountability.
- Deliver personalised customer service, resolve enquiries, returns and policy-related issues, and work towards individual sales targets.
- Liaise with head office and line managers on stock availability and operational requirements, while supporting visual merchandising and store presentation.

Administrative Tutor
VIP English School | Taipei, Taiwan | Jul 2023 – Jan 2024

- Supported teaching and administrative operations across four daily sessions, with multiple classes of approximately 30 students each.
- Maintained attendance, student records and teaching documentation using Excel and OneDrive, coordinating information with teachers and parents.
- Collaborated with colleagues to supervise students, prepare learning materials and provide academic support, including individual make-up lessons tailored to student needs.

Restaurant All-Rounder
Yitiaotong Japanese Restaurant | Taiwan | Jun 2023 – Feb 2024

- Coordinated orders, table service and customer requests with colleagues during busy service periods, balancing competing priorities to maintain efficient service.
- Processed POS and cash transactions and completed closing cash counts and till reconciliation, checking takings against sales records to verify daily totals.
- Supported opening and closing operations and maintained an organised front-of-house environment.
